EDUCATION

B.tech | Information Technology
Vishnu Institute of Technology
2021-2025
CGPA-8.5

Intermediate | MPC
Tirumala Jr College
2019-2021
96.3%

SSC | Tirumala School
2019
Grade-10

TECHNICAL SKILLS

Programming
- Java
- C
- Python (Fundamentals)

Web Technologies
- Html
- Css
- Javascript
- MongoDb(Fundamentals)

Cloud computing
- AWS(AmazonWebServices)
- Azure

Frameworks
- ReactJs

Additional
- Database Management
- Figma

INTERSHIPS
- Internship On Cloud Computing

  In Academor
- Android Development In AICTE

HOBBIES
- Learning New Technologies
- Problem Solving Hackerank
- Game Designing
- Playing Badminton

ABOUT

I'm a Front End Designer dedicated to crafting immersive digital experiences through meticulous attention to detail and a user-centric approach. With a passion for pushing the boundaries of web design, I thrive in collaborative environments where creativity flourishes.

PROJECTS

➡ **Static website hosting in AWS | Individual**
- Create an S3 bucket, enable static website hosting and upload your website file.
- Configure bucket permissions for public access.
- Optionally , set up Route 53 for DNS and CDN to enhance performance and scalability.

➡ **Load balancer in Azure | Individual**
- To create a load balancer in Azure:
- Navigate to "Load Balancers" in the Azure portal.
- Click "+ Add" configure frontend IP, backend pool, and rules.
- Review and create; wait for deployment to complete.

➡ **Community Connect | Team**
- Developed a community communication platform using the FREN stack to connect clients with service engineers
- Designed intuitive interfaces in React, implemented RESTful APIs in Express, and utilized Firebase Firestore for efficient data management
- Enhanced community engagement and service delivery through real-time interaction, optimizing client satisfaction and operational efficiency.

CERTIFICATION
- Certificate On Cloud Computing in Academor
- Certificate On Android Development In AICTE
